

Dear Commissioners,

I am a 11<sup>th</sup> grade student at Eldorado High School. We have been learning about the meat packing industry in the 1920's. We also read Upton Sinclair's The Jungle. It was my understanding that downed cows were not permitted to be processed under the Downed Animal Protection Act docket # QSP-0151/CPI. I'm for the act and would like for it to be enforced better than it has been in the past.

Thank you,

Asha D'Ningra
